Presentación

El Centro de Estudios de las Finanzas Públicas de la H. Cámara de Diputados, ha integrado la presente serie estadística con información de los recursos federales destinado a las Entidades Federativas y Municipios a través del rubro de *Gasto Federal Descentralizado* que se conforma con los Ramos 25, 28, 33 y 39.

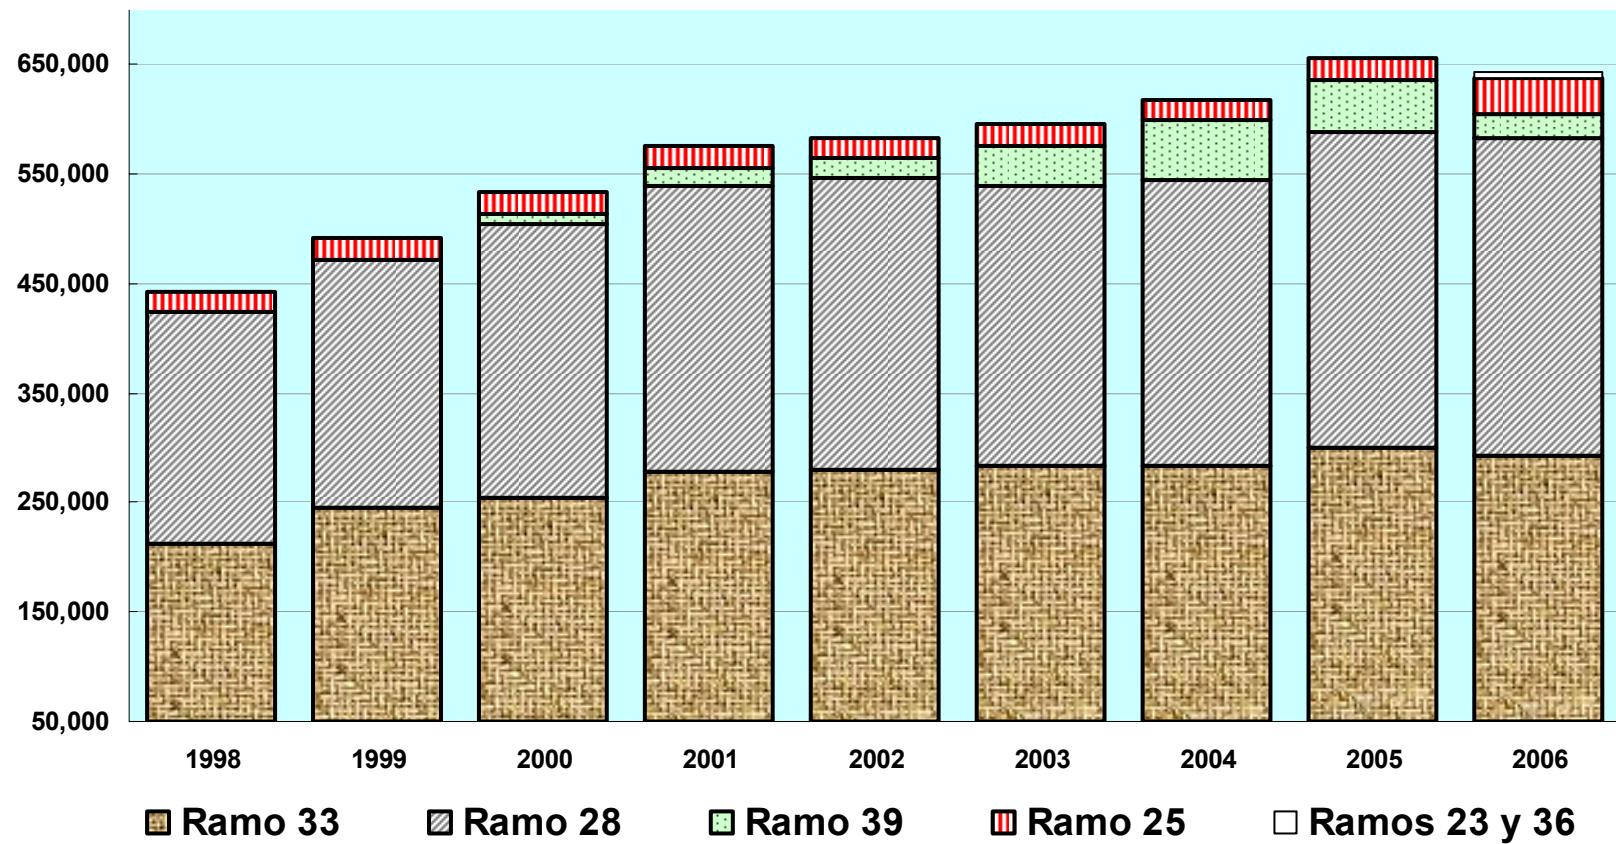

La información que se presenta comprende el período 1998-2006, considerando que a partir de 1998, se incorporó el Ramo 33 al Presupuesto de Egresos de la Federación y posteriormente, en el año 2000, se estableció el Programa de Apoyos para el Fortalecimiento de las Entidades Federativas, que actualmente constituye el Ramo 39, de esta forma este grupo de gasto se diversificó y se ampliaron las opciones para hacer frente a las necesidades de los distintos grupos sociales del país, a la vez que, la disponibilidad de información en esta materia se hizo más accesible.

Los cuadros estadísticos que a continuación se presentan, contienen información de manera desagregada por Ramos y Fondos distribuidos por Entidad Federativa, para efectos comparativos, se realizó un encadenamiento con las cifras del banco de información que el propio Centro ha creado en los años recientes.

Para el período de 1998 al 2005, se emplearon datos históricos observados, provenientes de la Cuenta de la Hacienda Pública Federal, es resultado de un amplio trabajo de recopilación, conciliación y sistematización; en tanto que las cifras del año 2006, corresponden a las aprobadas por esta H. Origen, Distribución y Aplicación de los Recursos

Los recursos del Presupuesto de Egresos de la Federación que se asignan a las Entidades Federativas y Municipios a través de los distintos Ramos que conforman el *Gasto Federal Descentralizado*, también llamado *Gasto Federalizado*, son producto de los cambios y reformas que se han registrado en la Administración Pública Federal en los últimos años, acciones realizadas con el objeto de descentralizar las responsabilidades y los recursos humanos y materiales; considerando que tienen en la actualidad una importante participación en las finanzas públicas del país y que, a la vez constituyen la fuente principal de ingresos de las administraciones públicas estatales, a continuación se describe de manera breve el origen, distribución y aplicación de dichos recursos.

Ramo 25, Previsiones y Aportaciones para los Sistemas de Educación Básica, Normal, Tecnológica y de Adultos

Fue creado en 1992, como resultado del proceso de descentralización educativa, actualmente la mayor parte de este Ramo se destina al Distrito Federal, una pequeña fracción se transfiere durante el transcurso del ejercicio al Ramo 33; el monto se determina anualmente en el Decreto de Presupuesto de Egresos de la Federación; estos recursos tienen como destino el pago de la nómina magisterial en el Distrito Federal, su vigencia está sujeta a la suscripción del acuerdo de descentralización educativa entre el Gobierno Federal y el Gobierno de esta Ciudad.

Por su parte, los Ramos 28 y 33, que representan los montos más altos de estos recursos, se distribuyen entre las Entidades Federativas a partir de fórmulas, indicadores, criterios, calendarios y destino establecidos en la Ley de Coordinación Fiscal (LCF), en ésta se establece la normatividad sobre los diversos programas y objetivos a los que deberán asignarse los recursos, lo que da origen a que los recursos se concentren en las regiones con mayores núcleos de población, con mayores rezagos sociales, o una combinación de ambos.

Ramo 28, Participaciones a Entidades Federativas y Municipios

Es el más antiguo de este grupo de gasto, el esquema actual de distribución hacia los Estados data de 1980, pero se deriva de la LCF de 1954; este Ramo está conformado por los siguientes conceptos: el Fondo General de Participaciones, el Fondo de Fomento Municipal, el Fondo de Impuestos Especiales, el Impuesto a la Tenencia o uso de Vehículos, el Impuesto Sobre Automóviles Nuevos, el Impuesto al Comercio Exterior, el Derecho Adicional Sobre Extracción de Petróleo e Incentivos Económicos; debe señalarse que los dos primeros conceptos absorben el 88.0 por ciento de los recursos de este Ramo.

El Fondo General de Participaciones, se determina con base en la Recaudación Federal Participable (RFP), que se deriva de la Ley de Ingresos de cada ejercicio, se distribuye a los Estados considerando básicamente los siguientes elementos: a) el esfuerzo recaudatorio, b) el número de habitantes y c) una proporción inversa a las participaciones por habitante. Una amplia descripción del procedimiento de cálculo de los rubros que conforman este Ramo, se encuentra en un documento recientemente elaborado por este Centro denominado *CEFP/034/2006, Recaudación Federal Participable*, disponible en la página electrónica, en la dirección: <http://www.cefp.gob.mx>.

Ramo 33, Aportaciones Federales para Entidades Federativas y Municipios

Para determinar el monto en tres de los siete fondos de este Ramo, se toma como referencia la RFP, éstos son: el Fondo de Aportaciones Múltiples que se estima con el 0.814% de la RFP, el Fondo de Aportaciones para el Fortalecimiento de los Municipios y el Distrito Federal con el 2.35% para los Estados y el 0.2123% para el Distrito Federal, el total del Fondo de Aportaciones para la Infraestructura Social se estima con el 2.5% de la RFP; de este Fondo, el 0.303% de la RFP es para Infraestructura Social Estatal y el 2.197% para Infraestructura Social Municipal; en los casos de los Fondos de Aportaciones para Educación Básica y Normal, para Educación Tecnológica y de Adultos, para los Servicios de Salud y para la Seguridad Pública, no se toma dicha referencia.

Con la creación del Ramo 33 en el Presupuesto de Egresos de la Federación de 1998 (PEF), se dotó a las Entidades Federativas y Municipios de mayor certeza jurídica y certidumbre en la disponibilidad de recursos, y más responsabilidades sobre el uso y vigilancia de los mismos; de acuerdo con la LCF, los siete fondos que conforman actualmente el Ramo 33, se asignan, distribuyen y aplican para cubrir las necesidades sociales relacionadas con la educación, salud, infraestructura social, seguridad pública y otras; estos recursos son transferencias etiquetadas que sólo pueden emplearse para los fines que señala la LCF. Tomando en consideración que una descripción de manera amplia está contenida en el documento *CEFP/036/2006, Ramo 33 Aportaciones Federales para Entidades Federativas y Municipios*, recientemente editado y distribuido por este Centro, disponible en la página electrónica, en la dirección: <http://www.cefp.gob.mx>; en las siguientes líneas, se presenta un resumen de su destino específico.

El monto y el destino de este Ramo, se establece en el decreto de presupuesto de cada año, la distribución por Entidad Federativa se realiza de acuerdo a la estructura porcentual de las Participaciones reportada en la última Cuenta Pública;

es importante mencionar que a partir del año 2003, en las cifras que se reportan como ejercidas, se han venido incorporando recursos que no estaban consideradas en el presupuesto original, estos recursos son las aportaciones del Gobierno Federal al *Fideicomiso para la Infraestructura en los Estados (FIES)*, provenientes de los recursos de excedentes petroleros, conforme a la disposición normativa establecida en el decreto de presupuesto.

El artículo 85 de la Ley antes mencionada señala que los subsidios asignados a través de este Programa serán destinados a las siguientes actividades:

- Cuando menos en un 50.0%, a inversión física, incluyendo la construcción, reconstrucción, ampliación, mantenimiento y conservación de infraestructura, adquisición de bienes para el equipamiento de las obras generadas o adquiridas y hasta un 3.0 % del costo del proyecto programado para gastos indirectos, estudios y evaluación de proyectos de infraestructura.

¹ Debido a que en el PEF 2006 no se contemplaron recursos para Convenios de Descentralización, en este grupo se excluyeron del período 1998-2005, para disponer de cifras homogéneas al comparar totales.

² En el Presupuesto 2006, el Ramo 25 está integrado por dos componentes: los recursos que se ejercen en el Distrito Federal en el propio Ramo, así como los que durante el transcurso del año se transfieren a los Fondos para Educación del Ramo 33, al concluir el ejercicio se registran en este Ramo únicamente los recursos que se ejercen en el Distrito Federal, razón por la que la cifra presupuestada en este Ramo para el ejercicio 2006, es superior a los años anteriores.

³ En este Ramo en los ejercicios 2003, 2004 y 2005 incluye las aportaciones del gobierno federal al Fideicomiso para la Infraestructura en los Estados (FIES).

¹ Debido a que en el PEF 2006 no se contemplaron recursos para Convenios de Descentralización, en este grupo se excluyeron del periodo 1998-2005, para disponer de cifras homogéneas al comparar totales.

² En el Presupuesto 2006, el Ramo 25 está integrado por dos componentes: los recursos que se ejercen en el Distrito Federal en el propio Ramo, así como los que durante el transcurso del año se transfieren a los Fondos para Educación del Ramo 33, al concluir el ejercicio se registran en este Ramo únicamente los recursos que se ejercen en el Distrito Federal, razón por la que la cifra presupuestada en este Ramo para el ejercicio 2006, es superior a los años anteriores.

³ En este Ramo en los ejercicios 2003, 2004 y 2005 incluye las aportaciones del gobierno federal al Fideicomiso para la Infraestructura en los Estados (FIES).
